

I would like to inform the FCC that K-love Radio is beneficial to my family and our local community. I have three active children. Having K-love for them is inspiring. This station offers support, inspiration, guidance for the entire family and community. I do not have to turn down the radio and hear what is coming thru on k-love. This station has a variety of music for all types of music lovers, yet....its clean. Many families in our area use k-love daily for all it has to offer. It has messages for troubled teens, for strained marriages, on Sunday evens it has forums for local issues. The station serves purposes and i want to do my part to keep it on air and available for our town to hear. Thank you
